EDUCATION

Technological University Dublin, Grangegorman — *BSc Computer Science, First Class Honours* September 2022 - May 2026

Relevant Coursework:

Advanced Security
Visualising Data
Operating Systems

Procedural Programming
Object-Oriented Programming
Forensics

Machine Learning for Data Analytics
Algorithms and Data Structures
Mobile Software Development

St. Benildus College, Kilmacud — *Leaving Certificate*

August 2016 - May 2022

Relevant Achievements:

Computer Science - H1

Spanish - H2

Mathematics - H3

St. Benildus College, Kilmacud — *ECDL Certificate*

December 2016 - May 2018

Demonstrated proficiency in essential computer skills through comprehensive training and examination in 7 modules ensuring full competency in using Microsoft technology and gaining experience in IT security.

PROJECT WORK

NewsScope (2026): Built an Android news app that highlights bias in articles and tailors recommendations to each user's reading habits. Designed and developed the full system end to end, from the mobile app through to the backend and machine learning models.

CalPAL (2024): Built a Kotlin productivity app with scheduling, location tracking, and user management. Added GPS, notifications, secure login, implemented Room database and many other common features in mobile applications.

Music Visualizer (2024): Led development of a 3D visualization tool that synchronizes with mp3 files. Designed menus and file structures, resolved merge conflicts, fixed bugs, and sustained source control with Git/GitHub.

WORK EXPERIENCE

Alizé, Luxembourg

February 2026 - March 2026

- Developed Python-based web scraping systems to extract and process large-scale structured and unstructured data as a **software engineer**.
- Built automation scripts to clean, transform, and validate data pipelines.

Eirgrid Group, Ballsbridge

January 2025 - August 2025

- Facilitated the IT Operations function as an **intern** in the Market and Operational Systems team with system administration, patching, and application support across almost 10 production, pre-production and test environments.
- Administered 100s of support tickets per month, troubleshooting user issues, certificates, and account access with a 95% resolution rate within deadlines.
- Produced and maintained weekly system performance reports and monthly health checks, identifying and mitigating vulnerabilities that improved reliability by 15%.
- Designed and implemented a network attached storage housekeeping strategy for large storage systems, creating 6+ automated scripts to archive and compress files, freeing up 100s of GB of storage.
- Collaborated with senior engineers on more than 10 system deployments, assisted with database access for 100s of users, and renewed dozens of digital certificates.
- Engaged in change advisory board management meetings, gaining experience in risk assessment and cross-team coordination involving more than 50 stakeholders.
- Mentored and guided a new graduate on the team through 10 knowledge transfer sessions, demonstrations, and shadowing activities.

The North Face, Dundrum

November 2023 - December 2024

- Contracted as a **sales consultant** entrusted with opening and closing the store/tills and training new staff.
- Supervised 3 stockrooms, increasing efficiency in retrieving items for 100s of customers and the business.

Superdry, Dundrum

June 2023 - October 2023

- Employed as a **sales associate** giving 100s of customers product support in a multinational corporation.
- Took 100s of phone calls for customer concerns, queries and deliveries leading to augmented customer footfall.

Uppercross House Hotel, Rathmines

July 2021 - March 2023

- Engaged as a **housekeeper/cleaner**. Executed daily quotas and maintained high standards of cleanliness.
- Cleaned up to 50 hotel rooms daily for new arrivals and after departures, the hotel bar and restaurant.

SKILLS

Languages: Python, Java, Kotlin, Dart, SQL, JavaScript, PHP, C, Bash, R, SWI-Prolog, HTML, CSS

Frameworks & Libraries: Flutter, FastAPI, Android SDK, Room, PyTorch

Databases: PostgreSQL, MySQL, MongoDB, Supabase

Cloud & DevOps: Firebase, Hugging Face, Docker, GitHub Actions (CI/CD), Linux

Tools: Git, Android Studio, VS Code, Apache, StarUML, Microsoft Office

VOLUNTARY WORK

The Alzheimer Society of Ireland

March 2025 - September 2025

Trained for and completed the Irish Life Dublin Half Marathon, raising funds and awareness for the charity.

Gaisce Bronze Award

September 2019 - May 2020

Completed the President's Award programme over 26 weeks across four areas: community involvement with St John's Ambulance, cooking as a personal skill, gym work for physical recreation, and hiking Dublin's trails.

Amnesty Ireland

September 2018 - March 2020

Volunteered with a student-led group raising awareness for human rights campaigns, gathering petition signatures, and organising events to engage the wider school community.

Run For Life

August 2016 - May 2022

Annual charity run held at St. Benildus College. Contributed through corporate sponsorships, door-to-door local sponsorships, and roadside collections.
